TO: Minerals File

FROM: Reclamation Specialist *Tom Munson*

RE: Site Inspection, MCW Enterprises, LLC, Crescent Creek, /May Day Mill Project, S/017/043, Garfield County, Utah

Date of Inspection: June 27, 2000
Time of Inspection: 2:30 p.m.
Conditions: Sunny, hot
Participants: Buzz Rakow, BLM; Tom Munson, DOGM

Purpose of Inspection: To inspect site while in the area

There is still the same amount of disturbance as there was at the last inspection. There is approximately 2-3 acres at this site. All the equipment, with the exception of a few things, are still here; a trailer, a trommel screen, a spiral, miscellaneous pipe and debris. No reclamation has taken place. Some regrading had been done on the lower end of the drainages, a settling pond was put back in.

This site is still active and photos were taken to document site visit. It is the intention of Mr. Wilson to make this site his primary milling site, moving equipment to it from the Milla Martinique site.

A GPS reading was taken under file number R062720A, edited, and determined to be 2.76 acres.
